NEWS RELEASE

Port Assists in Covid-19 Operations

Piti, Guam, July 23, 2020: The Port Authority of Guam continues efforts to assist the island of Guam during the Coronavirus pandemic.

The Port is currently managing the distribution of massive amounts of hand sanitizers to clinics, hospitals and government agencies across the island.

“We are all in this COVID-19 battle together,” Port General Manager Rory J. Respicio said. “We have been helping on numerous fronts in the island-wide effort and at the same time maintaining 100 percent operation from the very beginning of this pandemic. That speaks to the Port Strong spirit of the employees and our commitment to everyone on our island.”

The drums full of hand sanitizer were donated from FEMA to Guam Homeland Security. GHS designated the Port Authority of Guam to be in charge of this project and the drums are stored at the Port's main facility. PAG personnel coordinate the delivery of the hand sanitizers to locations around the island at the direction of Homeland Security.
