NEWS RELEASE

All three cranes unload Matson's Kaimana Hila

Piti, Guam, June 20, 2023: The Port Authority of Guam continues to receive vessels with cargo destined for Guam and the Commonwealth of the Northern Mariana Islands utilizing all three gantry cranes.

"Our Port Strong team worked tirelessly to reopen the Port in just three days and get all three gantry cranes collectively operational by June 9, 2023," said Port General Manager Rory J. Respicio. "Today, all three cranes working on one vessel is a direct result of a tremendous amount of support received from Governor Lou Leon Guerrero, Lt. Governor Josh Tenorio, our Board, and our federal, local and industry partners."

Matson's Kaimana Hila arrived dockside this morning at 7:25 a.m. By 4:00 p.m., a total of 243 containers were unloaded accounting for 200 containers for Guam and 43 transshipment containers. Of the 200 local containers, 142 contain dry goods and 58 are refrigerated containers also known as "reefers".

FEMA Satellite Site

FEMA's Registration Intake Center has assisted 161 Cabras Island tenants and employees with registration, filing a claim, providing updates on the status of an application, and general inquiries.

"This is FEMA's satellite disaster recovery center that was established to assist Port employees, tenants, industry partners, and all businesses within Cabras Island in filing FEMA claims at this location," said Respicio. "We are so thankful that they have boots on the ground to assist our employees and industry partners who have been working non-stop since the typhoon hit our island."

Today, the satellite intake center will remain open until 7:30 p.m.

Cargo and fuel processed since reopening

The following fuel and cargo commodities have been processed and released into our island community since reopening the Port on Sunday, May 28, 2023:

- 330 reefers;
- 2146 containers with dry goods;
- 1636 bundles of rebar;
- 2 boxed steel pipes;
- 75 bundle steel plates;
- 751 vehicles;
- 149 units of general cargo;
- 1 excavator, 4 trucks, 1 tractor; 2 dump trucks, 1 fuel truck, 1 drill rig;
- 1 bundle of chassis; and
- 5 barges – fuel operations.
